Enrollment and Program Completers

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	3	0
No Race/Ethnicity Reported	9	2

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- >> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. ([§205\(a\)\(1\)\(A\)\(iii\)](#); [§206\(b\)](#))

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- Yes
 No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- Yes
 No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- Yes
 No
 Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- Yes
 No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- Yes
 No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- Yes
 No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- Yes
 No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

The topics listed above are covered in each course offered by the College of Education. A new faculty member with expertise in diversity has been added to our staff.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in mathematics in 2018-19?

If no, leave remaining questions for 2018-19 blank (or [clear responses already entered](#)).

- Yes
 No

2. Describe your goal.

Our program planned to add 3 new participants in mathematics is 18-19

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

We focused on targeting advising for students in STEM program areas and working with districts to get teachers in the alternative certification-only program if they were degreed but not certified.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2019-20)

7. Is your program preparing teachers in mathematics in 2019-20? If no, leave the next question blank.

- Yes
 No

8. Describe your goal.

We plan to increase enrollment in mathematics by one participant.

Set Next Year's Goal (2020-21)

9. Will your program prepare teachers in mathematics in 2020-21? If no, leave the next question blank.

- Yes
 No

10. Describe your goal.

We plan to increase enrollment in mathematics by two participants in 2020-2021.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. You may download and review your 2019 report by following the following steps: 1) click the Home tab, 2) click "Academic Year 2018-19 Data" in the banner near the top of the page to expand the dropdown, and select "Academic Year 2017-18 Data," 3) Click Download Report.

- Yes
 No

2. Describe your goal.

Our goal was to increase by six participants in 2018-2019.

3. Did your program meet the goal?

- Yes
 No

4. Description of strategies used to achieve goal, if applicable:

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

6. Provide any additional comments, exceptions and explanations below:

Rising tuition costs and decreased enrollment impaired goal attainment.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. ([§205\(a\)\(1\)\(B\)](#))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All students are required to complete IRED 315, Integration of Technology in the Classroom. In addition to teaching software applications in word processing, database, spreadsheets and presentation software, all students are required to complete a unit plan that integrates their certification area with technology into a classroom setting.

Teacher Training

THIS PAGE INCLUDES:

>> [Teacher Training](#)

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

The conceptual and legal basis of inclusive instruction is introduced in SPED 391 which is taken by all teacher candidates. Throughout the course instruction on the impact and influence of different impairments on a student's demonstrations of learning is discussed. Specifically, general educators are guided on how to understand these learning behaviors in order to decode the intersection of the characteristics and the tasks demand. They receive specific instruction on the Universal design for learning and the fundamentals of the CAST model of UDL. All of the instructors require them to complete observations in inclusive settings which are further discussed and analyzed in class.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The legal requirements of the role of the general educator are presented in SPED 391. The process, legal responsibilities, and elements are presented through lectures, use of Department of Education websites, and videos. Teacher candidates also participate in small discussion groups where they evaluate and write goals and instructional objectives for simulated scenarios. Their performance in these situations and on tests are used to measure understanding of IEPs.

c. Effectively teach students who are limited English proficient.

Limited English Proficiency The instructional needs of students with limited English proficiency is embedded within the lectures of SPED 391 on understanding and working with families, understanding how behaviors are normative and determined by dominant culture, and how the difference in spoken language can appear as underachievement or mask a student's true capabilities. Again, in this course they have discussion groups, online simulation activities, and case study scenarios to assist them in understanding how to meet the needs of these students. This course also addresses the non-discriminatory assessment requirements under IDEA.

2. Does your program prepare special education teachers?

- Yes
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

IV. Response to Alternative Certification Special Education Teachers Teach students with disabilities effectively The conceptual and legal basis of inclusive instruction is introduced in SPED 491(G) which is taken by all special education teacher candidates. Throughout the course instruction on the impact and influence of different impairments on a student's demonstrations of learning is discussed. Specifically, general educators are guided on how to understand these learning behaviors in order to decode the intersection of the characteristics and the tasks demand. They receive specific instruction on the Universal design for learning and the fundamentals of the CAST model of UDL. All of the instructors require them to complete observations in inclusive settings which are further discussed and analyzed in class. Special education teacher candidates are provided more in depth guidance in teaching students with disabilities in their coursework in SPED 472 (G) or 482(G), 453(G) or 483(G), and 474(G) or 484(G). The

first of these courses focuses on understanding the impact of disability characteristics on learning behaviors and how teacher candidates can effectively design learning environments that promote successful outcomes. This again also includes consideration of Universal Design for Learning, motivation and engagement strategies, and preventive classroom management strategies. In SPED 472(G) or 482(G), 453(G) or 483(G), and 474(G) or 484(G) candidates extend their knowledge of instruction of basic subjects and learn specific strategies for assessment of learner progress, design of instructional supports for students with disabilities, collaborative instruction with general educators, and diagnostic assessment of student needs. They demonstrate these skills through discussion of case simulations, submission of lesson plans, design and implementation of assessment portfolios, and direct instruction of students with disabilities in the learning clinic. Additional, knowledge of instruction and collaboration is presented in SPED 426(G) or 436 (G)– Prevocational and Transition Skills course and in SPED 414(G) or SPED 535(G)– Interdisciplinary and Inter-agency Teaming Course. The Reading Methods class also addresses within their required lesson plans that students submit instructional designs that address accommodations for diverse learners in their classrooms. Teacher candidates have first hand experiences implementing these lesson plans in clinic experiences.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

The legal requirements of the role of the special educator are introduced in SPED 491 (G). The process, legal responsibilities, and elements are presented through lectures, use of Department of Education websites, and videos. Teacher candidates also participate in small discussion groups where they evaluate and write goals and instructional objectives for simulated scenarios. Their performance in these situations and on tests are used to measure understanding of IEPs. Understanding of the IEP is developed further in SPED 453(G) or 483(G), 474(G) or 484(G), 426(G) or 436(G), 414(G) or 535(G). Within SPED 453(G) or 483(G) candidates participate in small group discussions regarding the development of IEPs using simulations. They are also expected in this course to write a simulated IEP based on a case study presented. In the clinic they meet with the parents of their assigned student to review the child's current IEP and to better understand parental concern. In SPED 474(G) or 484(G) candidates are expected to demonstrate the ability to apply information gathered in assessment to IEPs. They have additional conversations and opportunities to work with families in the clinic regarding their individual student's IEPs. In SPED 426(G) or 436(G) special education teacher candidates have the opportunity to learn the pre-vocational, vocational, and transition issues that are directly related to the IEP process. They have the opportunity to interact with teachers in the field and agency representatives and participate in discussions of simulations. They are required to write a transitional IEP based on a case study given in the class. In SPED 414 or SPED 535 special education teacher candidates have the opportunity to learn about communication and collaborative skills that may relate to the development and implementation of the IEP. Case studies and scenarios involving the development of the IEP are used in small group discussions.

c. Effectively teach students who are limited English proficient.

The instructional needs of students with limited English proficiency is embedded within the lectures of SPED 491 on understanding and working with families, understanding how behaviors are normative and determined by dominant culture, and how the difference in spoken language can appear as underachievement or mask a student's true capabilities. Again, in this course they have discussion groups, online simulation activities, and case study scenarios to assist them in understanding how to meet the needs of these students. This course also addresses the non-discriminatory assessment requirements under IDEA.
