

## OVERVIEW

The Educator Workforce Snapshot provides an overview of workforce data for the 1,391 traditional public schools and public charter schools in Louisiana from the 2023-2024 school year based on End-of-Year (EOY) data\*. The purpose of this snapshot is to communicate annual workforce data and trends to stakeholders, and to support decision-making for statewide improvements regarding recruitment and retention. In this snapshot, "teacher" is defined as any teacher of certified courses; "school leaders" are educators serving as principals or assistant principals in traditional public schools and public charter schools in Louisiana. "Central office" employees are those identified as office personnel at the school system level, excluding superintendents and other executive personnel.

\*Workforce Reports prior to 2021-2022 used October 1 reporting data.

## CERTIFICATION

These data reflect teacher certification for core classes in Louisiana traditional public schools and public charter schools. Teachers are certified when they hold a valid teaching certificate. If a certified teacher teaches a course that is outside of their certification area, they are considered as teaching out-of-field (OOF). A teacher could teach both courses in their certification area and out-of-field courses. Teachers without a valid certification, or with a certificate that has expired, are considered uncertified.

# RECRUITING AND HIRING

These data indicate the entire “newly hired teacher population” as well as the teacher preparation program from which first-year teachers were hired in all Louisiana traditional public schools and public charter schools. Louisiana’s teacher pathways are divided into “undergraduate” and “post-baccalaureate” programs. Subsets of those newly hired teachers are disaggregated below.

NEWLY HIRED TEACHERS BY PATHWAY				
	Teachers Hired in 2023-2024		Teachers Hired in CIR Schools in 2023-2024	
Newly Hired Teacher Population	7,692	15%	2,357	31%
Hired from Undergraduate Programs	480	6%	75	16%
Hired from Post-Baccalaureate Programs	937	12%	243	26%

The newly hired population above indicates how much of the total teacher workforce is newly hired. A teacher who was hired previously, left Louisiana traditional public schools or public charter schools, and was rehired in 2023-2024 is counted as a new hire.

# EVALUATING RESULTS

The [Value-Added Model](#) (VAM) data below, which focuses on student growth over a one-year period, is displayed by teacher type and is disaggregated by subject area and certification status. Only teachers in Louisiana traditional public schools and public charter schools who are eligible for VAM data receive this data. For the 2023-2024 academic year, social studies conducted a field test for the initial implementation of the new Louisiana Social Studies Standards. Therefore, social studies did not receive VAM results and received an "NR" which stands for Not Reported.

# CERTIFICATION

- **Certification Status:** Each teacher will be in one of the three categories - Certified (appropriately certified), out-of-field (certified but does not hold proper certification in the area where at least one course was taught), or uncertified (holds a temporary certificate or does not hold a valid certificate).
- **Teacher Certification by Subject Area:** Out-of-field teachers were identified based on the certification area(s) for the courses being taught according to the Curriculum Database (CUR) cross-referenced with all certification area(s) held by the teacher according to Teacher Certification Management System (TCMS). Teachers may be certified and still classified as out-of-field if they teach any course that requires a certification different from what they hold; therefore, teachers may count as both certified and out-of-field.

# DEFINITIONS

- **Comprehensive Intervention Required (CIR):** An overall performance of “D” or “F” for three years (or two years for new schools) and/ or a graduation rate of less than 67% in the most recent year.
- **Count of Teachers:** This data represents the headcount of teachers, object code 112, as reported in EdLink 360. Each teacher is counted once, regardless if he/she works at more than one site. Teachers reported as post-secondary, contractual, or third party were excluded from this report.

- **Value Added Model (VAM):** The value-added model (VAM) measures students' success compared to similar peers year to year. Value-added is a statistical model that uses student characteristics to determine anticipated student performance in the current year. The VAM anticipates how well students will perform on state assessments in comparison to their peers with similar prior test scores and background. Once a student has taken state assessments, the model shows the extent to which his or her achievement was on target with what was expected (student expected score). The difference between a student's actual achievement and his or her expected achievement is known as the "value added."
