Teaching Philosophy	I believe that learning is a lifespan process and as a teacher I continue to learn with my students. As a teacher of preprofessional teachers, I have the opportunity to directly impact my students as well as have an indirect impact on their future students.
Bio	Dr. Duncan's was a first generation college student who attended college with the aid and motivation provided by a gymnastics scholarship. Aspirations to be a Division I Men's Gymnastics coach, pushed him to continue his education and make career moves to that end. After coaching at the high school and university levels for 12 years, he retired from coaching and pursued his Ph.D. Since earning his P.h.D. from FSU in 1992, Dr. Duncan's professional interests have been focused toward preservice teacher preparation at the elementary level for both classroom and physical education teachers.
