## Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

## Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

## Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. ## Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. **(§205(a)(1)(B))**

Provide the following information about your teacher preparation program.

**(§205(a)(1)(G))**

## Teacher Training

### 1. Provide a description of the activities that prepare general education teachers to:

#### a. Teach students with disabilities effectively

The conceptual and legal basis of inclusive instruction is introduced in SPED 391 which is taken by all teacher candidates. Throughout the course, instruction on the impact and influence of different impairments on a student's demonstrations of learning is discussed. Specifically, general educators are instructed on how to understand these learning behaviors in order to decode the intersection of the characteristics and the tasks demand. They receive specific instruction on the Universal design for learning and the fundamentals of the CAST model of UDL. All instructors require candidates to complete observations in inclusive settings which are further discussed and analyzed in class. The Reading Methods and Math Methods classes also address within their required lesson plans that students submit instructional designs that address accommodations for diverse learners in their classrooms. Teacher candidates have first hand experiences implementing these lesson plans in clinic and local school field experiences. The Secondary Methods class EDCI 450 includes instruction on the use of multiple learning styles to meet diverse learner needs including Universal Design for Learning. Additionally, the concepts of Response to Intervention and Inclusion of students with disabilities into the instructional day is addressed. The Unit Plan submitted for this course must include these concepts.

#### b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

IEP Team Participation The legal requirements of the role of the general educator are presented in SPED 391. The process, legal responsibilities, and elements are presented through lectures, use of Department of Education websites, and videos. Teacher candidates also participate in small discussion groups where they evaluate and write goals and instructional objectives for simulated scenarios. Their performances in these situations and on tests are used to measure understanding of IEPs.

#### c. Effectively teach students who are limited English proficient.

The instructional needs of students with limited English proficiency is embedded within the lectures of SPED 391 on understanding and working with families, understanding how behaviors are normative and determined by dominant culture, and how the difference in spoken language can appear as underachievement or mask a student's true capabilities. This course also addresses the non-discriminatory assessment requirements under IDEA. Again, in this course they have discussion groups, online simulation activities, and case study scenarios to assist them in understanding how to meet the needs of these students and tests to demonstrate proficiency.

### 2. Does your program prepare special education teachers?

- Yes  
 No

If yes, provide a description of the activities that prepare *special education teachers* to:

#### a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.
